Dear Patients,

I wanted to let you know that as of May 27, 2011, my colleague Dr. Grant Disick will be taking over my urology practice. I have the utmost trust in Dr. Disick, who has worked alongside me for the last three years, and I am confident that with him as your physician, you will be in good hands. In fact, you may already have received medical care from Dr. Disick in the three years since he and I have been working together.

Dr. Disick is a board certified, fellowship-trained urologist who received a medical degree from Tufts University School of Medicine and completed urology residency at the prestigious Mount Sinai Medical Center in New York. Perhaps even more important than his impressive credentials, Dr. Disick is a compassionate and personable physician who exemplifies what it means to be a caregiver.

As you may already know, my practice and Dr. Disick's practice currently share office spaces in Boca Raton and Delray Beach, so you will have the convenience of continuing your care in the same locations you are accustomed to, using the same phone numbers. Your existing electronic medical records are able to be seamlessly transferred to Dr. Disick, and I will continue to consult with him over the coming months to ensure continuity of high-quality care.

I appreciate the trust that you've placed in me as your physician, and I strongly encourage you to see Dr. Disick from this point forward. It has been a pleasure caring for your medical needs.

Sincerely,

Gilbert Rigaud, M.D.
